Introducing CS Connect

From inspiration to installation | csconnect.ca@caesarstone.ca

8103 Calacatta Nobella

CS Connect is a true point of difference for your business that will drive sales conversion and improve customer satisfaction.

CS Connect is a revolutionary way to help your customers design and purchase a fully installed Caesarstone® surfaces - from inspiration to installation.

CS Connect brings an integrated online estimator to our retail partners which immediately delivers a detailed installed square foot quote. Simply input measurements and select colours, edge details and other ancillary items.

Once the quote is accepted by your customer and converted to an order, the complete order is sent directly to a Certified Caesarstone Fabricator who confirms measurements, fabricates and installs the Caesarstone product.

The CS Connect online tool tracks the project from start to finish, working with high quality fabrication partners to deliver a fully installed Caesarstone surface in the home. Workmanship is guaranteed via our trusted and certified fabricator network.

How it works

CS Connect is a game changer that makes selling countertops easier and more profitable than ever before. It's easy from start to finish!

1. Join CS Connect
Work with our team to get set up as a CS Connect retail partner.

2. Get Trained Quickly & Easily
We'll walk you and your team through the easy to use online estimator and provide training materials to keep things running smoothly.

3. Recommend Caesarstone Recommend Caesarstone® surfaces for your customer's project.

4. Provide a Quote Instantly
Input project measurements, options and specs - receive an installed square foot quote in minutes.

5. Convert & Place the Order
Finalize the transaction and the contract.

6. Confirm Measurement
Your partner fabricator receives the order, contacts the customer and schedules an on-site measurement.

7. Fabricate & Install
Project goes into production and the customized surface is installed by a Caesarstone Certified Fabricator.

8. Complete the Project
The fabricator and your customer jointly review the installation and the customer signs off on the Certificate of Completion.

Get an instant quote

Connect's online estimator offers transparent installed coutertop quotes in just minutes on your desktop, laptop or mobile device. The tool provides an interactive process with your customer present. Quotes can be created for any application including countertops, backsplashes, bathroom vanities and more.

Enter measurements and select colours, edge details and other ancillary items. With this dynamic quoting tool, no layout is too complicated. The speed, accuracy, and flexibility on Connect's quoting tools are revolutionizing the sales process for all of our Retail Partners.

Check your order status

Say goodbye to time-consuming emails or phone calls and plan with confidence by using the CS Connect online portal. Track your project every step of the way with complete transparency, helping you better manage your customer's project and timeline.
